Basil Read Limited (in business rescue)

Registration number 1962/002313/06

("The Company")

May – July 2021

17th Update Report to the Companies and Intellectual Property Commission ("CIPC")

and to all Affected Persons

In Terms of Section 132 (3) (a) of the Companies Act 71 of 2008

Prepared by:

John Lightfoot and Siviwe Dongwana

Joint Business Rescue Practitioners

Directors: Siviwe Dongwana | Les Matuson | Bongani Nkasana | Piers Marsden | John Lightfoot
Suite 23, Building 2, Oxford & Glenhove, 114 Oxford Road, Houghton Estate, Johannesburg, 2196

1. Introduction

- 1.1. The Company was placed in business rescue under the supervision of the joint business rescue practitioners (“the Practitioners”) in business rescue proceedings on 15 June 2018, and the Business Rescue Plan (“the Plan”) proposed by the Practitioners was presented to and approved by 99% of all creditors and 98% of independent creditors on 27 September 2018.
- 1.2. This report, being the **Seventeenth (17th) Update Report**, is being tabled in terms of Section 132 (3) (a) of the Companies Act 71 of 2008 (“the Act”) as the business rescue proceedings of the Company have not been concluded within three months of the date of commencement as required.
- 1.3. Reference is made in this report to the Plan, it is therefore important that this report be read in conjunction with the Plan and all the previous update reports.
- 1.4. Please refer to www.matusonassociates.co.za/basilread/ for further information on the business rescue proceedings of the Company.

2. Current Status

2.1. Construction Contracts (“Contracts”)

- 2.1.1. As previously reported, construction contracts were significantly impacted by Covid-19 and the regulations and restrictions issued by the South African Government in terms of the Disaster Management Act.
- 2.1.2. There is a general level of uncertainty regarding the future which has been compounded by the onset of the third wave. It is in this context that the Company is seeking to complete the remaining works in respect of the Contracts.
- 2.1.3. The construction contracts that existed at the commencement of the business rescue proceedings have been completed, achieving one of the key objectives of the business rescue plan.
- 2.1.4. The defects liability period is still in place for the following projects:
- 2.1.4.1. Umgeni Water (Rosetta Water Treatment Works) – March 2022
- 2.1.4.2. Rand Water (Zuikerbosch) – August 2021
- 2.1.4.3. TCTA (Olifants River Water Resources Development Project – Phase 2) – November 2021

ADAMANTEM

MATUSON
ASSOCIATES

2.1.4.4. Eskom (Various Medupi Projects) – August 2021

2.1.5. The Company continues to pursue construction opportunities with existing clients and in partnership with other construction companies.

2.2. Guarantees

2.2.1. Since the last update report, no further guarantees have been called by any of the Employers

2.2.2. The value of guarantees outstanding is currently R93 million compared to R1.1 billion in June 2018 when the Company filed for business rescue.

2.3. Contract Claims Receivable

2.3.1. The aggregate sum of contract claims is substantial and the Practitioners believe the extent to which the Company can recover these claims will impact materially on the result of the business rescue process.

2.3.2. The resolution of contract claims has proven to be time consuming, tedious and costly with the process being further adversely affected by the Covid-19 related lockdowns, particularly where matters have been subject to court and arbitration proceedings.

2.3.3. Notwithstanding these challenges the Company has been successful in obtaining favourable rulings with respect to certain of these claims. Unfortunately, Employers continue to unlawfully withhold payments due in terms of these rulings. Consequently, the Company has taken legal action to enforce the rulings. As a result, the timing of receipts of funds for these claims remains uncertain.

2.3.4. The Company continues to rely heavily on realising claims to meet its commitments.

2.4. Realisation of Non-Core Assets

2.4.1. Given the contraction of the local and global economy, resulting from the Covid-19 pandemic, there has been further waning of interest in the non-core assets of the Company. However, we remain optimistic that this position is likely to improve in the coming year. Should any affected person know of or be interested in any of the properties for sale, please contact the business rescue team at basilread@matusonassociates.co.za.

2.5. Retained Businesses (Mining and Developments)

2.5.1. One of the primary objectives of the approved Plan was the optimisation, safeguarding and preservation of the retained businesses.

2.5.2. These businesses remain self-sustaining and continue to perform well notwithstanding the negative overhang of the business rescue of the Company on them and the adverse effects of the prevailing Covid-19 pandemic.

2.5.3. There have been no further developments on the disposal of the retained businesses since the last report.

2.6. Proceeds from Realisations

Proceeds from the realisation of non-core assets and contract claims will be distributed in terms of the payment waterfall, as contained in the Plan, and in line with the Company Act.

3. Unforeseen Setbacks

- 3.1. There remain high levels of uncertainty globally because of the various strains of the Covid-19 virus and the subsequent waves of new infections associated with them. The current third wave and the potential responses that will come with it will have an adverse effect on the planned completion dates of the remaining contract, the finalisation of contract claims and hampers the ability of Employers to pay the Company timeously.
- 3.2. All the unanticipated setbacks will adversely affect the quantum of any business rescue dividend that may ultimately be paid to concurrent creditors. However, the extent of the reduction of any business rescue dividend cannot be calculated at this stage, until all realisations have occurred.

4. Proof of Claims

- 4.1. The claims submission period has closed.

Please refer any questions or queries relating to your claim to basilread@matusonassociates.co.za

5. Conclusion

- 5.1. Owing to the above-mentioned delays and setbacks, the dividend to concurrent creditors, as anticipated in the Plan, is likely to be significantly reduced and will largely depend on the value of asset realisations and contract claims.
- 5.2. Notwithstanding the above-mentioned uncertainties, it is anticipated that:
- 5.2.1. subject to the anticipated realisation of Claims, all PCF and other post-commencement obligations will be settled in full; and
- 5.2.2. the risk of further guarantees being called, although not eliminated, has been significantly reduced.
- 5.3. It remains the opinion of the Practitioners that a full implementation of the Plan will achieve a better result than a liquidation.
